LONDON · RELOCATING TO DUBAI

I built a property business from nothing to £250,000 of revenue in its first year — serviced accommodation, local-authority placements and deal sourcing for investors — and I still run it every day. Before that I cooked: a private chef to high-net-worth clients in their own homes, and a sous chef in professional kitchens before that. The two careers taught the same thing — that at the top of the market people don't buy the pitch, they buy the person who did the unglamorous work properly and told them the truth. I have spent this year preparing a Dubai desk — the market data, the developers, the unit economics — and I want to learn the market on the ground with a brokerage whose standards I'd put my own name to. I have not sold Dubai property yet. I intend to be very good at it.

EXPERIENCE

Founder — Sam n Harv Investment (S L Grants Ltd)

2025 — present · UK South West

Property business co-founded with my brother Harvey. Zero to £250,000 revenue in year one, and growing.

- **Built the revenue.** Two serviced-accommodation units furnished, listed and operated day to day; over twelve months of supported-accommodation placements for a local authority, run inspection-ready; deal sourcing for investors. One client's public review credits our deals with "adding six figures in revenue" to his business.
- **Learned to underwrite.** Built our BRR model (cash purchase → 75% refinance, stamp duty, legals, furnishing, holding) and a worst / likely / best case discipline; priced eleven live listings for a cash client and structured a three-flat conversion, subject to planning.
- **Prepared a Dubai desk.** Compiled sixteen years of Dubai Land Department transaction data into published analysis — off-plan at 73% of sales, the off-plan premium narrowing from 66% to 19%, yields by community, a developer resale-gain scorecard — and built a unit-by-unit showcase across Binghatti, Damac, Sobha, Emaar, Danube, Ellington and Aldar from the developers' own price lists. Research and preparation, not transactions: that is what I am applying for.
- **Built the machine.** Designed the brand and website (samnharv.co.uk), the CRM and enquiry flows, a 32-step investor sales process and the content programme; assembled a partner chain — bridging and commercial finance, architect, builder, furnishing, management — through relationships made in London this year.
- **Standards.** Anti-money-laundering and GDPR trained, Enhanced DBS, professionally insured; identity and proof of funds before particulars, every time.

Private Chef — Samuel's Food

[year] — 2025 · [location]

Private dining for high-net-worth clients in their homes and at events, as a one-person business.

- Won and kept clients by referral — [roughly how many households / events a year, and the calibre: e.g. family offices, football, city] .
- Sold, priced, sourced, cooked and served every booking myself, to a standard where one mistake ends the relationship. That is the discipline I bring to a listing and a viewing.
- [one number you're happy to state: bookings a year, average ticket, or revenue]

EXPERIENCE, CONTINUED

Sous Chef — [restaurant / group]

[year] – [year] · [location]

- Second in command of a professional kitchen: [covers / brigade size / the kind of kitchen — e.g. rosette, hotel, private members] . Ran service, ordering and a section team under pressure, daily.

WHAT I BRING TO A DUBAI DESK

I have built a business from zero.
To £250k of revenue in a year, with my own money at risk. I know what it costs to find a client, keep one, and deliver after the sale.

Selling to wealth, face to face.
Years in the homes of high-net-worth clients as their chef. No pitch, no pressure, every detail done first — the register a Palm or Downtown buyer expects.

Content and pipeline.
I make my own reels, carousels and data notes, run a WhatsApp-first enquiry flow and a booked-call funnel. I will bring leads, not wait for them.

The market, studied properly.
Communities, developers and delivery records, payment plans, DLD fees and Oqood, Golden Visa thresholds, the UK-buyer tax picture, and where the cycle sits — from the data, before I've earned a dirham from it.

Honesty as the method.
I model the exit flat and say so. I put "character over commission" on my business cards and I mean to be held to it.

A sterling investor base to build.
An investor list forming in the UK South West and London, and a brother on the ground in Asia. Early, real, and mine to grow for the brokerage.

COMPLIANCE & TRAINING

- Anti-money-laundering trained · GDPR (UK, advanced) trained · Enhanced DBS · Risk assessment, fire awareness, conflict resolution, EDI
- Professional indemnity and public liability insured (S L Grants Ltd, Companies House 16505504)
- RERA: ready to complete the DREI Certified Broker course and exam immediately on arrival; UAE residency via employer sponsorship

SKILLS

Client care at the top of the market · Investor qualification & KYC · Off-plan structures & payment plans (studied) · Comparable analysis & underwriting · Negotiation

WhatsApp-led sales · Listing presentation · Instagram content & short-form video · Brand and web (built samnharv.co.uk) · Data analysis (DLD / DXB Interact)

EDUCATION

- [Qualification, institution, year]

PERSONAL

- British. Available to relocate to Dubai immediately; full clean UK driving licence [confirm] .
- References: a serviced-accommodation company director and a landlord client, both on request; reviews public on Google. Chef references on request.
